

Conservation Incentive Program Summary

Residential Renewable Energy Incentives

- Solar energy: 30% of total cost up to \$2,500
- Geothermal energy: 30% of total cost up to \$2,500
- Wind energy: 30% of total cost up to \$2,500

Indoor Air Quality Incentives

- Carbon monoxide detectors: 1 per 1,000 square feet of home
- HEPA furnace filters: 100% of cost for up to 3 filters per year, not to exceed \$100
- Energy star qualified bathroom exhaust: \$400 per bathroom per qualifying residence per 5 years
- Air quality home audit: limited to the GLT service area, must be performed by GLT staff
- Mold testing: 100% of cost, not to exceed \$200; must be completed by GLT staff within the GLT service area

Energy Audits and Retrofits*: New incentives denoted in red text!

*Recent energy audit report must recommend energy retrofit for that retrofit to be eligible for a CIP incentive with the exception of LED lights and programmable thermostat.

- Walk through energy audit: \$50
- Full diagnostic energy audit (blower door test and thermal scan): \$450
- Post retrofit energy audit (blower door test and thermal scan): \$250
- Attic or wall Insulation: \$2.00 per square foot
- Crawl space/basement foam insulation: \$2.00 per square foot
- Crawl space/basement vapor barrier: \$1.40 per square foot, not to exceed \$1,500
- Windows: (double pane minimum U-factor .035): \$50.00 per window
- Window sealing: \$20.00 per window
- Furnace/air conditioning: \$1,000.00 furnace, \$250.00 central air conditioning
 - Furnace AFUE Ratings must be 96% or higher
- HVAC tape sealing: up to \$200
- Water pipe and water heater insulation: up to \$200
- Exterior door replacement: \$100 per energy star qualified door
- Exterior door sealing: \$20.00 per door;
- LED lights: Up to \$500.00 per household. Based on pre-taxed purchase of lights on receipt.
- Programmable thermostat: \$250 per unit including installation.

Water Conservation: New and updated incentives denoted in red text!

- Up to 3 low flow showerheads per qualifying residence: \$30 per unit
- Up to 3 water sense toilets per qualifying residence: \$200 per toilet
- Up to 2 rain barrels per qualifying residence
- Septic inspection and pumping: \$350 once every 3 years
- Drinking water testing for bacteria, nitrates, nitrites, dissolved solids, pH, lead, copper, sulfates, hardness, arsenic, fluoride, iron, manganese, sodium and zinc

Residential Appliance Rebates

Incentive based on percent better than federal minimum for energy use and pre-tax purchase price.

- Energy Star Freezers – chest, upright
- Energy Star Dishwashers
- Energy Star Dehumidifiers
- Energy Star Refrigerators

Incentive listed below

- Energy Star Clothing Dryer 50% of the pre-tax purchase price
- Energy Star Clothing Washer 75% of the pre-tax price
- Energy Star Water Heater 50% of the pre-tax purchase price
- Energy Star Tankless Water Heater 75% of the pre-tax purchase price

Items currently **NOT** Eligible for CIP

- Microwaves
- Stoves
- Water Softeners

Auto Incentives

- A purchased vehicle with a fuel economy of 40 MPG highway or higher shall be eligible for a \$2,000 rebate
- A purchased vehicle with a fuel economy of 45 MPG highway or higher shall be eligible for a \$2,500 rebate
- A purchased full electric vehicle shall be eligible for a \$3,000 rebate
- A leased vehicle with a fuel economy of 40 MPG highway or higher shall be eligible for a \$1,000 rebate
- A leased vehicle with a fuel economy of 45 MPG highway or higher shall be eligible for a \$1,250 rebate
- A leased full electric vehicle shall be eligible for a \$1,500 rebate

In no instance will a Conservation Incentive Program (CIP) incentive total more than 100% of the purchase price or cost of an item or service.

All incentives are subject to all conditions detailed in the CIP policies.
